USE EVERGREENS EVERYWHERE

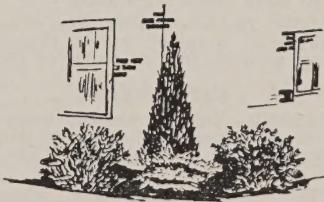

A FRONT SIDEWALK PLANTING

A Mugho Pine at each side of top of steps with two Savin Junipers below gives a very pleasing effect. On narrow lots the Mugho Pines may be used alone.

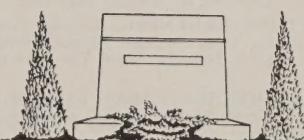

A FRONT ENTRANCE PLANTING

At the front entrance the tall Silver Cedars or the Red Cedars are most appropriate. The low Mugho Pines next to the steps contrast nicely in color and form, as do also the Juniper Savin which complete the groups.

FOR CORNER OF HOUSE

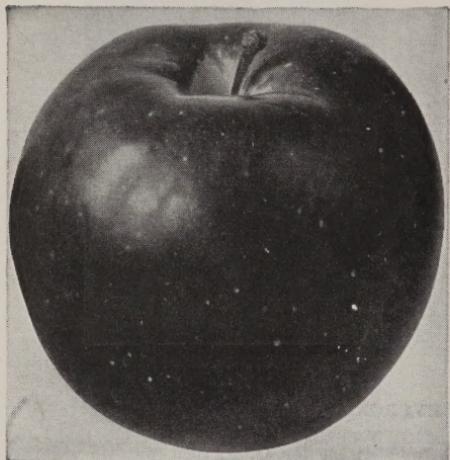

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Mugho Pine at each side, and either a Pfitzer or a Savin Juniper between these two, the effect is harmonious.

A REFINED MONUMENT PLANTING

A Silver Cedar, Red Cedar or Pyramidal Arbor Vitae at each end of the monument with a Juniper Savin in front and in back presents a dignified and refined appearance.
